

UPGRADING CAPITALSTREAM

Whether you want to keep your Capitalstream investment current on up-to-date versions or you want to capitalize on new capabilities and functionality, the experts at Accutive can help you. We can work with your team to identify features that will provide benefits across your organization. Are there too many other initiatives in your organization keeping you busy? Leave the upgrade worries to Accutive. Contact us today to determine how we can assist you with implementing, upgrading, or custom developing your Capitalstream application.

EXPERTISE:

WE'VE DONE IT BEFORE

Accutive has extensive experience in delivering custom Capitalstream deployments. We have the knowledge, experience and resources needed to support you with your Capitalstream software upgrades.

An upgrade can be a prime opportunity to maximize the overall value of your Capitalstream platform. Accutive can do the heavy lifting for you. We make it a point to not just know the technology, but to also know the ins and outs of your business. Our insights and results-driven approach will ensure that your upgrade project is seamless.

TRAINING AND CONSULTING:

KEEP YOUR STAFF AND CAPITALSTREAM APPLICATION UP-TO-DATE

Our Professional Services Team has the ability to efficiently train your staff members on your entire Capitalstream platform. We actively keep ourselves apprised of the new features and functionality and can provide support to ensure the health and maintenance of the hardware and software supporting your Capitalstream investment.

RESOURCES:

MINIMIZE THE IMPACT ON OTHER IT PRIORITIES

Many IT objectives are delayed by competing projects that have an immediate impact on your business operations and staff. Leveraging the Accutive Professional Services Team allows your organization to:

- Accomplish an additional IT initiative without expanding your IT department.
- Limit the impact on daily business operations.
- Expedite project completion.

UPGRADE ASSESSMENT:

MITIGATE BUDGETARY SURPRISES

A one week review will provide a more detailed estimate to assist with your budget and planning. This will make your upgrade project more predictable.

Contact us for more information or to schedule your project assessment.

UPGRADE PROCESS AT-A-GLANCE

BASIC UPGRADE STEPS:

- Install New CS Version
- Run Database Updater
- Merge Configuration Files
- Merge Screens
- Code Customizations
- Standard Report Setup
- Test Application

THE ACCUTIVE DIFFERENCE

Accutive combines deep industry, implementation, development, project management expertise, practical tools, and innovative thinking to catalyze the achievement of your business objectives.

ACCUTIVE PROFESSIONAL SERVICES

As experts in the Linedata Capitalstream platform, Accutive can help you with all your Capitalstream initiatives such as new projects, customizations, enhancements, upgrades, documents, reports, service packs or other ongoing technical support and maintenance activities.

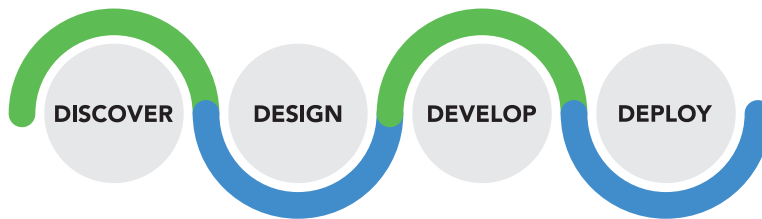

Accutive can assist you in preparing initial project proposals to get your initiatives approved, provide estimates, or support with any other project documents such as, but not limited to: project charters, project plans, QA strategy and execution, technical design, integration design, and organizational change management.

Accutive also has extensive experience in integrating Capitalstream with a wide array of other applications. Our experts can help you maximize your straight through processing by integrating the Capitalstream platform into your proprietary and commercial applications.

Large or small, Accutive's experienced team can support your initiatives, we have the in-house technical expertise and creativity to help you make the most of your investment in the Capitalstream product.
